Professional Summary

Full-stack web developer with experience in building applications using React for the frontend and PHP with SQL for the backend. I work on creating reusable UI components, integrating secure APIs, and managing database-driven features using MVC architecture. I focus on clean, maintainable code, performance optimization, and basic security best practices while delivering end-to-end solutions.

Academic Qualification

-
- Arya College of Engineering & Information Technology (Rajasthan Technical University) (CGPA-7.38) 2021 – 2025
Bachelor of Technology in Computer Science Jaipur, Rajasthan

Work Experience

-
- Full-stack web developer – iparable (Noida) July 2025 ~ Present
- I develop React-based frontend websites, building responsive, component-driven user interfaces with proper state management, form handling, and API integration.
 - I build ERP solutions and dynamic web applications using PHP and SQL, implementing backend logic, database-driven modules, and secure CRUD operations to support real-world business workflows.
- Video Streaming using Gstreamer – TATA ADVANCED SYSTEMS .LTD (Bangalore) (July 4 2024-August 16 2024)
- Designed and implemented the media playback pipeline using GStreamer, enabling smooth playback of various video and audio formats. Integrated additional plugins to support advanced features like subtitle rendering and network streaming. Implemented a feature to support live streaming, increasing the application's versatility.

Projects

-
- Developed a full-stack tour and package booking system with a PHP-MySQL backend. Implemented dynamic listings, booking workflows, and an admin panel for package and booking management. Designed a responsive UI using Tailwind/Bootstrap and ensured smooth frontend-backend integration.
 - Designed and developed a responsive React-based website for SWAMATICS, focusing on reusable components, performance, and user experience. Implemented dynamic content sections and smooth navigation to effectively present engineering services and solutions.

Technical Skills

Technologies: C++, JavaScript, PHP | React.js, Next.js, HTML, CSS, Tailwind, Bootstrap | MySQL, phpMyAdmin.

Certifications

-
- RHCSA Certified (Red Hat Certified System Administrator)
 - Full Stack Web Development (grras)
